ABOUT ME

I'm highly motivated to continuously improve my skills and knowledge in the field. Actively seeking opportunities to apply my expertise and make meaningful contributions in a professional setting. Outside of web development, I enjoy socializing, sports, and music, which help me build relationships and refresh my mind.

BACKGROUND

Discovered a passion for web development During my program that made me determined to excel and improve as a FullStack Developer. I like to constantly work on my skills and improve my knowledge by using online resources and working on various personal projects, With a previous internship as a FullStack intern where I worked on both Front-End and Back-end for a Company website that keeps employees records in a database.

SKILLS

- HTML
- CSS
- JavaScript
- React
- Node.js
- MongoDB
- SQL
- Linux
